- Multi-limited tilting mechanism
- Adjustable armrests

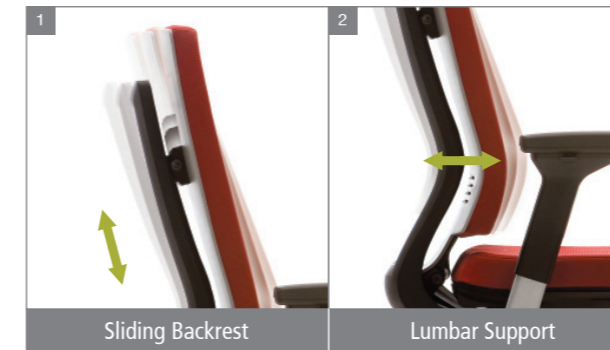

T55 swivel task chair as per basic type with adjustable armrests and headrest

- Slide & Sync system (Sliding backrest & lumbar support)
- Adjustable (depth) seat plate
- Height adjustable pneumatic cylinder
- Engineered plastic base
- Polyurethane castors
- Synchronised tilting mechanism
- Multi-limited tilting mechanism
- Adjustable armrests
- Adjustable headrest

Slide & Sync System

The innovative double layer back allows full 3D movement eliminating friction between the user and the backrest. The action of the backrest mimics that of the body and provides totally synchronised support at all times.

1. Sliding Backrest

The clever double layer construction allows the backrest to gently move on the precision engineered frame with the body.

2. Lumbar Support

The action of the backrest is fully synchronised to ensure that the lumbar support remains active and correct at all times irrespective of the angle of the back.

Attention to detail

1 / 2. Adjustable Headrest (Optional)

The height and angle of the headrest can be adjusted depending on your physique.

3. Seating Depth Adjustment

Smooth acting Seat Slide to allow seat depth to be adjusted.

4. Synchronised Tilting

With Double synchronisation T55 offers integral back synchronisation working in conjunction with a synchronous seat.

5 / 6 / 7. Adjustable Armrest (Optional)

Multi adjustable for both height and depth and manufactured from Thermal Polyurethane for maximum comfort.

8. 5-Step Tilting Angle Limiter

With 5 predefined stop points the multi limiter enables you to personalise the tilt range.

9. Tension Adjustment

Easily adjustable to suite different body mass and achieve a harmonised balance between user and chair.

10/11. Height Adjustable Pneumatic Cylinder

Pneumatic adjustment to enable the user to achieve the optimum and correct ergonomic height and posture.

12. Polyurethane Castors

Perfect for running on all surfaces with reduced noise and minimal surface impact.
