

AITCH GROUP

TASK Project Reference
Completed July 2023

AITCH GROUP

The collaboration between TASK and MF Design Studio resulted in a modern and highly functional workspace that perfectly captures Aitch Group's ethos and culture. The project was an exceptional opportunity for TASK to showcase our diverse portfolio, including workstations, breakout elements, sleek meeting rooms, and luxurious soft seating areas.

The new workspace is designed to encourage collaboration, creativity, and productivity. The layout is open and inviting, with plenty of natural light and greenery to create a calming environment. The meeting rooms are welcoming and accommodating, making them perfect for presentations and conferences. The breakout areas are perfect for informal meetings and brainstorming sessions.

Overall, the new workspace perfectly captures Aitch Group's commitment to excellence and innovation. It is a stunning example of how a well-designed workspace can enhance employee happiness, productivity, and overall wellbeing.
