TASK Project Reference
Completed March 2023

ARCHER

Introducing our latest project: an exceptional realization of a boardroom space that exudes elegance and modern sophistication. At the heart of this transformation is a stunning boardroom table, meticulously crafted with walnut finishes that showcase its rich, natural grain. The table's warm tones harmonize beautifully with the surrounding decor, creating a cohesive and inviting atmosphere. Complementing the table are the ICF Una Executive chairs, upholstered in luxurious leather. These chairs not only provide unparalleled comfort but also add a touch of refined luxury to the room.

Each Executive office is equipped with Lift3 sit-stand desks. These desks are paired with combined MPS storage units, providing seamless integration of practicality and aesthetics.

The open space is thoughtfully designed with 4-person sit-stand benches, promoting a collaborative and flexible working environment. These benches are complemented by metal pedestals in a sleek white finish, which provide both stability and style. To enhance the workspace further, walnut storage units are used as dividers, creating defined areas while maintaining an open feel.
