

HUNSTWORTH HEALTH

TASK Project Reference
Completed Jul 2019

HUNSTWORTH HEALTH

Introducing our latest project realization, a seamless blend of functionality and modern design across various workspaces. The boardroom features a stately rectangular work meeting table, perfectly paired with Una Management chairs. In the meeting rooms, was incorporated a variety of table shapes to suit different collaborative needs, accompanied by ICF Cantilever Ask chairs and ICF Stick STK chairs. These variations ensure flexibility and comfort, catering to diverse meeting styles and fostering productive interactions. The open office is equipped with Team2 desks, complemented by ergonomic Aim chairs. This setup supports optimal productivity and comfort for focused work. Additionally, MFC lockers provide ample storage solutions, contributing to an organized and efficient workspace.

The breakout area was designed to be both functional and inviting, featuring work high tables and Ice Finn stools. The Eat Meet Greet collection of benches and tables, with their industrial look, provides a stylish and comfortable setting for informal meetings and relaxation.

For the reception area, we chose an L-sofa and Clip coffee table by Marelli. This combination brings an industrial yet comfortable vibe, creating a welcoming space that leaves a lasting impression.
