

Attestation

LEED v4 and v4.1 BETA

On 1 February 2022, Eurofins Product Testing A/S received an office chair with the product name:

Stick Chair – Mini / Mini Melange Fabric

supplied by

ICF S.p.A.

The sample was supplied as being representative of the manufactured product. Sampling, testing and evaluation were performed in accordance with the ANSI/BIFMA M7.1-2011 (R2016) and ANSI/BIFMA e3-2014e (2014) test standards (See test report no. 392-2022-00016701_M_EN).

The tested product complies with the requirements for seating units in sections 7.6.1, 7.6.2 and 7.6.3 of ANSI/BIFMA e3-2014e:

-
- The sum of VOC ("TVOC") after 7 days was below the limit of 0.25 mg/m³.
 - Formaldehyde after 7 days was below the limit of 25 ppb.
 - The sum of other aldehydes after 7 days was below 50 ppb.
 - The concentration of 4-phenylcyclohexene after 7 days was below 0.00325 mg/m³.
 - No individual substance was calculated to have concentration above their respective CHREL-value after 14 days.
 - The calculated concentration of formaldehyde after 14 days was below 4.5 µg/m³.
