QADRO WALL

A MULTIFUNCTIONAL WALL SYSTEM FEATURING
FORMAL LINEAR DESIGN

Created to adapt to the needs of modern office and contract spaces, Qadro Wall is an on- trend evolution of the bookcase system and wall-covering, and it integrates elements and finishes for specific use to support communication requirements.

The structure compromises vertical uprights in anodised extruded aluminium with a rectangular cross-section, to be mounted on the wall.
The shelves and storage are also in extruded aluminium and come in variable widths from 90 to 160cm.

The collection is rounded out by specific elements for communication, such as monitor holders, whiteboards and pin boards in a wide range of colours.

QADRO SYSTEM

A MULTIFUNCTIONAL WALL - MOUNTED SYSTEM

Conceived to adapt to the needs of the office and modern contract spaces, Quadro System is a multifunctional wall-mounted system featuring rigorous linear design, created specifically to be easy to assemble, reconfigure and recycle: the perfect solution for flexible shelving to organise and store a multitude of objects.

Its easy assembly means it can be moved and modified to suit an infinite number of rooms and functions, from workspaces to the organisation of communal spaces.
