

SPECTRUM

TASK Project Reference
Completed Dec 2024

SPECTRUM

We are proud to have played a key role in the creation of Spectrum’s landmark project. Situated in the heart of London, the newly designed workplace interior is a vibrant representation of TASK’s extensive portfolio, featuring a boardroom meeting room, collaborative zones, breakout areas, working spaces, and waiting lounges. The open-plan workspace is meticulously crafted, incorporating our Team EV workstations alongside Hoxton storage units. The executive office radiates refined simplicity with its sleek combination of sleek green and grey finishes, complemented by Hoxton desking. In the boardroom, elegance takes centre stage with a Work table featuring a top finished in green fenix, perfectly matched with ICF Vale Esse chairs in green leather and a coordinating green-door credenza, creating a cohesive and natural aesthetic. Training rooms are furnished with ICF Stick chairs and Team tables, while the waiting area is enriched by Marelli’s Nest armchairs and the striking Clip coffee table with a luxurious marble top. The result is a stylish, functional, and engaging workspace that prioritises employee comfort and productivity.
