

STEWARTS LAW

TASK Project Reference
Completed Aug 2025

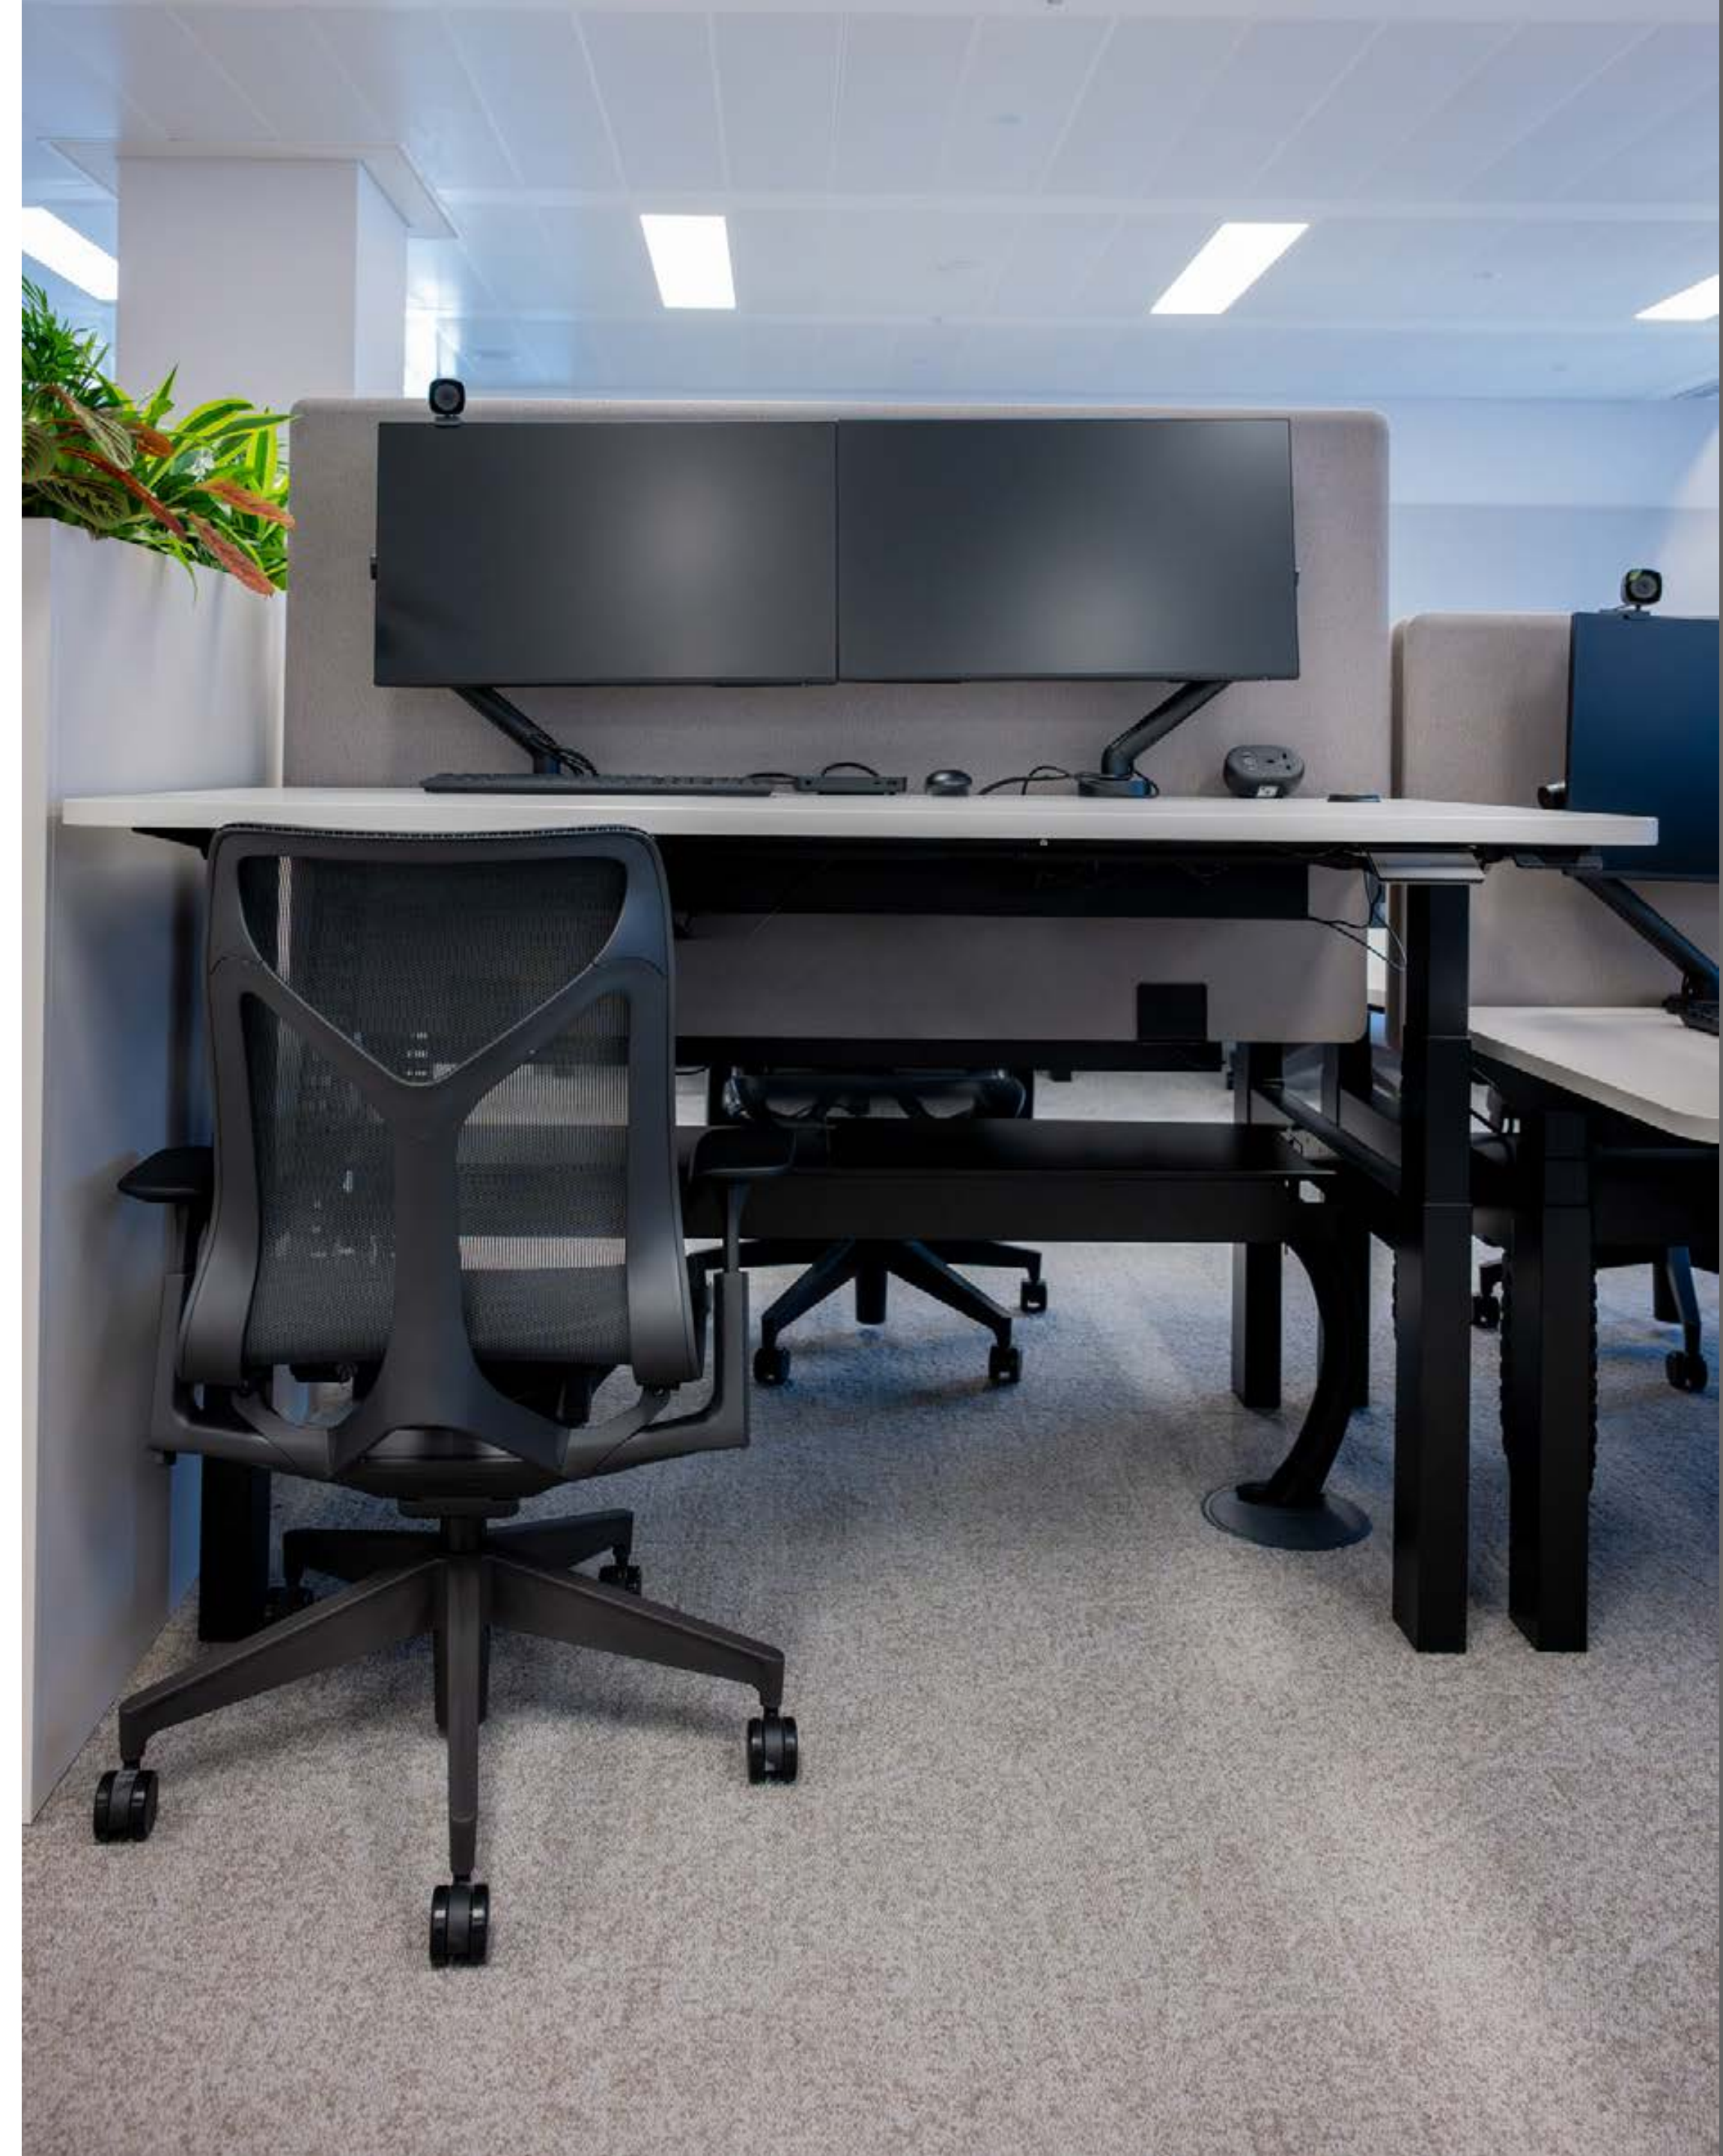

STEWARTS LAW

We were proud to be selected as the workstation and storage supplier for the prestigious new offices of Stewarts Law in the heart of London. It was a privilege to contribute to a project of this standard, blending function, flexibility and character, delivered in close partnership with the outstanding furniture consultant at Spacecraft.

Working alongside the brilliant Spacecraft team, we supplied a carefully curated selection of sit-stand workstations complemented by bespoke dividing screens. These ergonomic desks, enhanced with tailored detailing, were designed to meet the client's needs while adding individuality to the space. We also installed a selection of lockers to ensure each workstation remained clutter-free and highly efficient. Planters and greenery were incorporated to soften the environment and bring a sense of calm to the workplace.

Expertly managed and seamlessly delivered by Spacecraft, the project came together with precision and care. It now stands as a strong example of what our team at Task Systems can achieve.
